

Frequently Asked Questions about the Living Will

- ***What is a living will?***
A living will is a legal document that tells your doctor how you want to be treated if you are terminally ill or permanently unconscious and cannot make decisions for yourself. A living will says that life-prolonging medical interventions that would serve solely to prolong your dying should not be used. A living will only applies if you are terminally ill or permanently unconscious AND too sick to make decisions for yourself.
- ***Can I still make my own healthcare decisions once I have created a living will?***
Yes. Your living will does not become effective until you are terminally ill or permanently unconscious AND too sick to make decisions for yourself. As long as you can do this, you have the right to make your own decisions.
- ***Can any person create a living will?***
Yes. Any adult (including a mature or emancipated minor) who has the ability to make decisions for him or herself can complete a living will.
- ***Do I need a lawyer to create a living will?***
No. A living will can be completed without the help of a lawyer.
- ***Will another state honor my living will?***
Laws differ somewhat from state to state, but in general, a patient's expressed wishes will be honored.
- ***What should I do with my living will after I sign it?***
After your living will is signed, witnessed and notarized, keep the original document in a safe location where it can be easily found. A photo copy of your advance directive is legally valid.

The Kind of Medical Treatment I Want and Don't Want
 If I Have a Terminal Condition or Am In a Persistent Vegetative State

Living will made this ____ day of _____ (month, year).

I, _____, being of sound mind, willfully and voluntarily declare that I want my wishes to be respected if I am very sick and not able to communicate my wishes for myself. In the absence of my ability to give directions regarding the use of life-prolonging medical intervention, it is my desire that my dying shall not be prolonged under the following circumstances:

If I am very sick and not able to communicate my wishes for myself and I am certified by one physician who has personally examined me to have a terminal condition or to be in a persistent vegetative state (I am unconscious and am neither aware of my environment nor able to interact with others), I direct that life-prolonging medical intervention that would serve solely to prolong the dying process or maintain me in a persistent vegetative state be withheld or withdrawn. I want to be allowed to die naturally and only be given medications or other medical procedures necessary to keep me comfortable. I want to receive as much medication as is necessary to alleviate my pain.

I am giving the following SPECIAL DIRECTIVES OR LIMITATIONS ON THIS POWER: (Comments about tube feedings, breathing machines, cardiopulmonary resuscitation, dialysis, mental health treatment, funeral arrangements, autopsy, and organ donation may be placed here.
